Let's Learn About Fire Safety

Posters, Graphic Organizers, Readers & More

A Thematic Unit
Thank you for purchasing this product. This product can be used to help teach your students about Fire Safety. There are various materials with facts about fire safety, but you may still want to do your own research so you can give your students the most information possible.
book suggestions

These are some great books you can use during your Fire Safety studies. Some are for student enjoyment and some can be used to teach the students important information.
Fire Safety Themed Graphic
Organizers, Reading Passages & Chart Parts

- 2 writing prompts
- KWL Charts for Firefighters, Fire Safety & Fire Trucks
- Firefighters & Fire Trucks Can/Have/Are
- Firefighters, Fire Safety & Fire Trucks fact pages for students to fill in
- Dear Firefighter (girl and boy version)
- Firefighter, Fire Safety & Fire Truck Bubble Map
- 2 fire safety plan pages
- Fire Safety Plan Book to complete with families
- 2 Reading Comprehension passages
- Classroom Chart Parts

My Family's Fire Safety Plan
Let's Talk About Fire Safety

It is very important to know what to do in case of a fire. There are very important steps you must take if a fire occurs. You should have a fire escape plan in place with your family to make sure you know what to do if your house is on fire. You need to know how to get out of the house. You should never stay in the house. Get out as quick as you can.

Always stay low to the ground because smoke rises and you do not want to breathe it in. If a door is closed, do not just open it. Touch the door first in order to see if it is hot and safe to open. Once you are outside, STAY outside. Do not go back inside the house.

Make sure to call 911 if there is a fire. Learn your address so that if you have to you can tell the firefighters where you live so they can come put out the fire.

If your body is on fire, you need to act quickly and follow these three steps. First, you need to stop what you are doing. Next, you need to drop to the ground. Last, you need to roll around on the ground to help put out the fire.

**ANSWER THE QUESTIONS BELOW USING THE STORY ABOVE**

1. What is the number you should call in case of a fire? ______________

2. Why should you stay low when trying to get out of a burning house? ______

________________________________________________________________________

3. What are the three steps you should take if your body is on fire? _____

________________________________________________________________________
Let's Talk About Firefighters

Firefighters are special people. They help put out fires. The firefighters drive fire trucks to fight the fires. They wear special clothes so that they do not get burns on their bodies. Firefighters use fire hoses, ladders, and axes to help them fight fires and put them out. Not all firefighters get paid to fight fires. Some of them are just volunteers, while others actually fight fires as their jobs and get paid. Once the firefighters are done putting out a fire they drive the fire truck back to the fire station, where the fire truck stays until it is needed for the next fire.

ANSWER THE QUESTIONS BELOW USING THE STORY ABOVE

1. What does a firefighter do? ______________________________
   _____________________________________________________

2. What kinds of things do firefighters use to fight fires? _________________
   _____________________________________________________

3. Why do firefighters wear special clothes when they are fighting fires? 
   _____________________________________________________

Fire Safety Classroom and Student Reader/Big Book

- All About Fire Safety Classroom “Big” book that features real life pictures

- B&W student book that reads as the big book does so students can follow along
All About Fire Safety

By Heidi Dickey
We are firefighters. We help put out fires.
We get to fires in our fire truck. It holds all of our fire equipment.
A ladder, axe, and hose are all important things firefighters use to put out fires.
In the case of a fire, you need to call 911 right away.
Learn your address so you can tell the firemen where to go.
If you are on fire, stop what you are doing, drop to the ground, and roll to help put out the fire.
