**Subject:** A Very Late Update On Ardun

District 10 team,

If you don't remember, on October 12th at 15317 West Lincoln Rd 99224 my 1 month old son Ardun stopped breathing but came back after my wife and I performed CPR. Your amazing team came out and helped stabilize him and airlifted him to Sacred Heart. You had given me your card and asked for an update although I am late for which I apologize here is what we know. He is doing amazing and was released from the hospital about 2 weeks after admission. Haven't had any sort of mishaps since he is now a very happy and healthy 4 month old. All we know from his incident in October was his lungs decided to start hemorrhaging blood and he couldn't breath through the blood, they don't know why it happened but we were informed it would be unlikely to happen again. I would like to add that you and your team have my deepest respect, your conduct and professionalism for not only my son but wife and myself is truly admirable. Thank You all so very much.

Very Respectfully

Doncvan, Raylene and Ardun

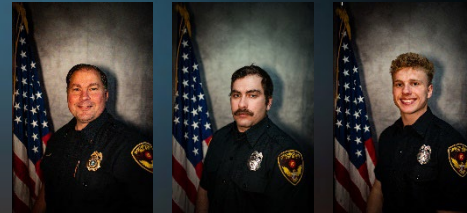

# You Are There When It Counts

Donovan, Raylene  
and Ardun (4 month old).

Crew:
